

Floor Stand Kiosk for Displays

FSK-1836

The Mega Media Industrial FSK-1836 is a custom manufactured, free-standing, floor kiosk, designed for demanding applications with displays up to 27 inches.

Simple, Sleek and Sturdy

This stylish kiosk features a sturdy, 5/16" steel base with black adjustable feet for easy leveling. A hollow upright allows easy passthrough of cables for a seamless and sleek look. The weighted base prevents tipping or wobbling.

Universal VESA Mounting

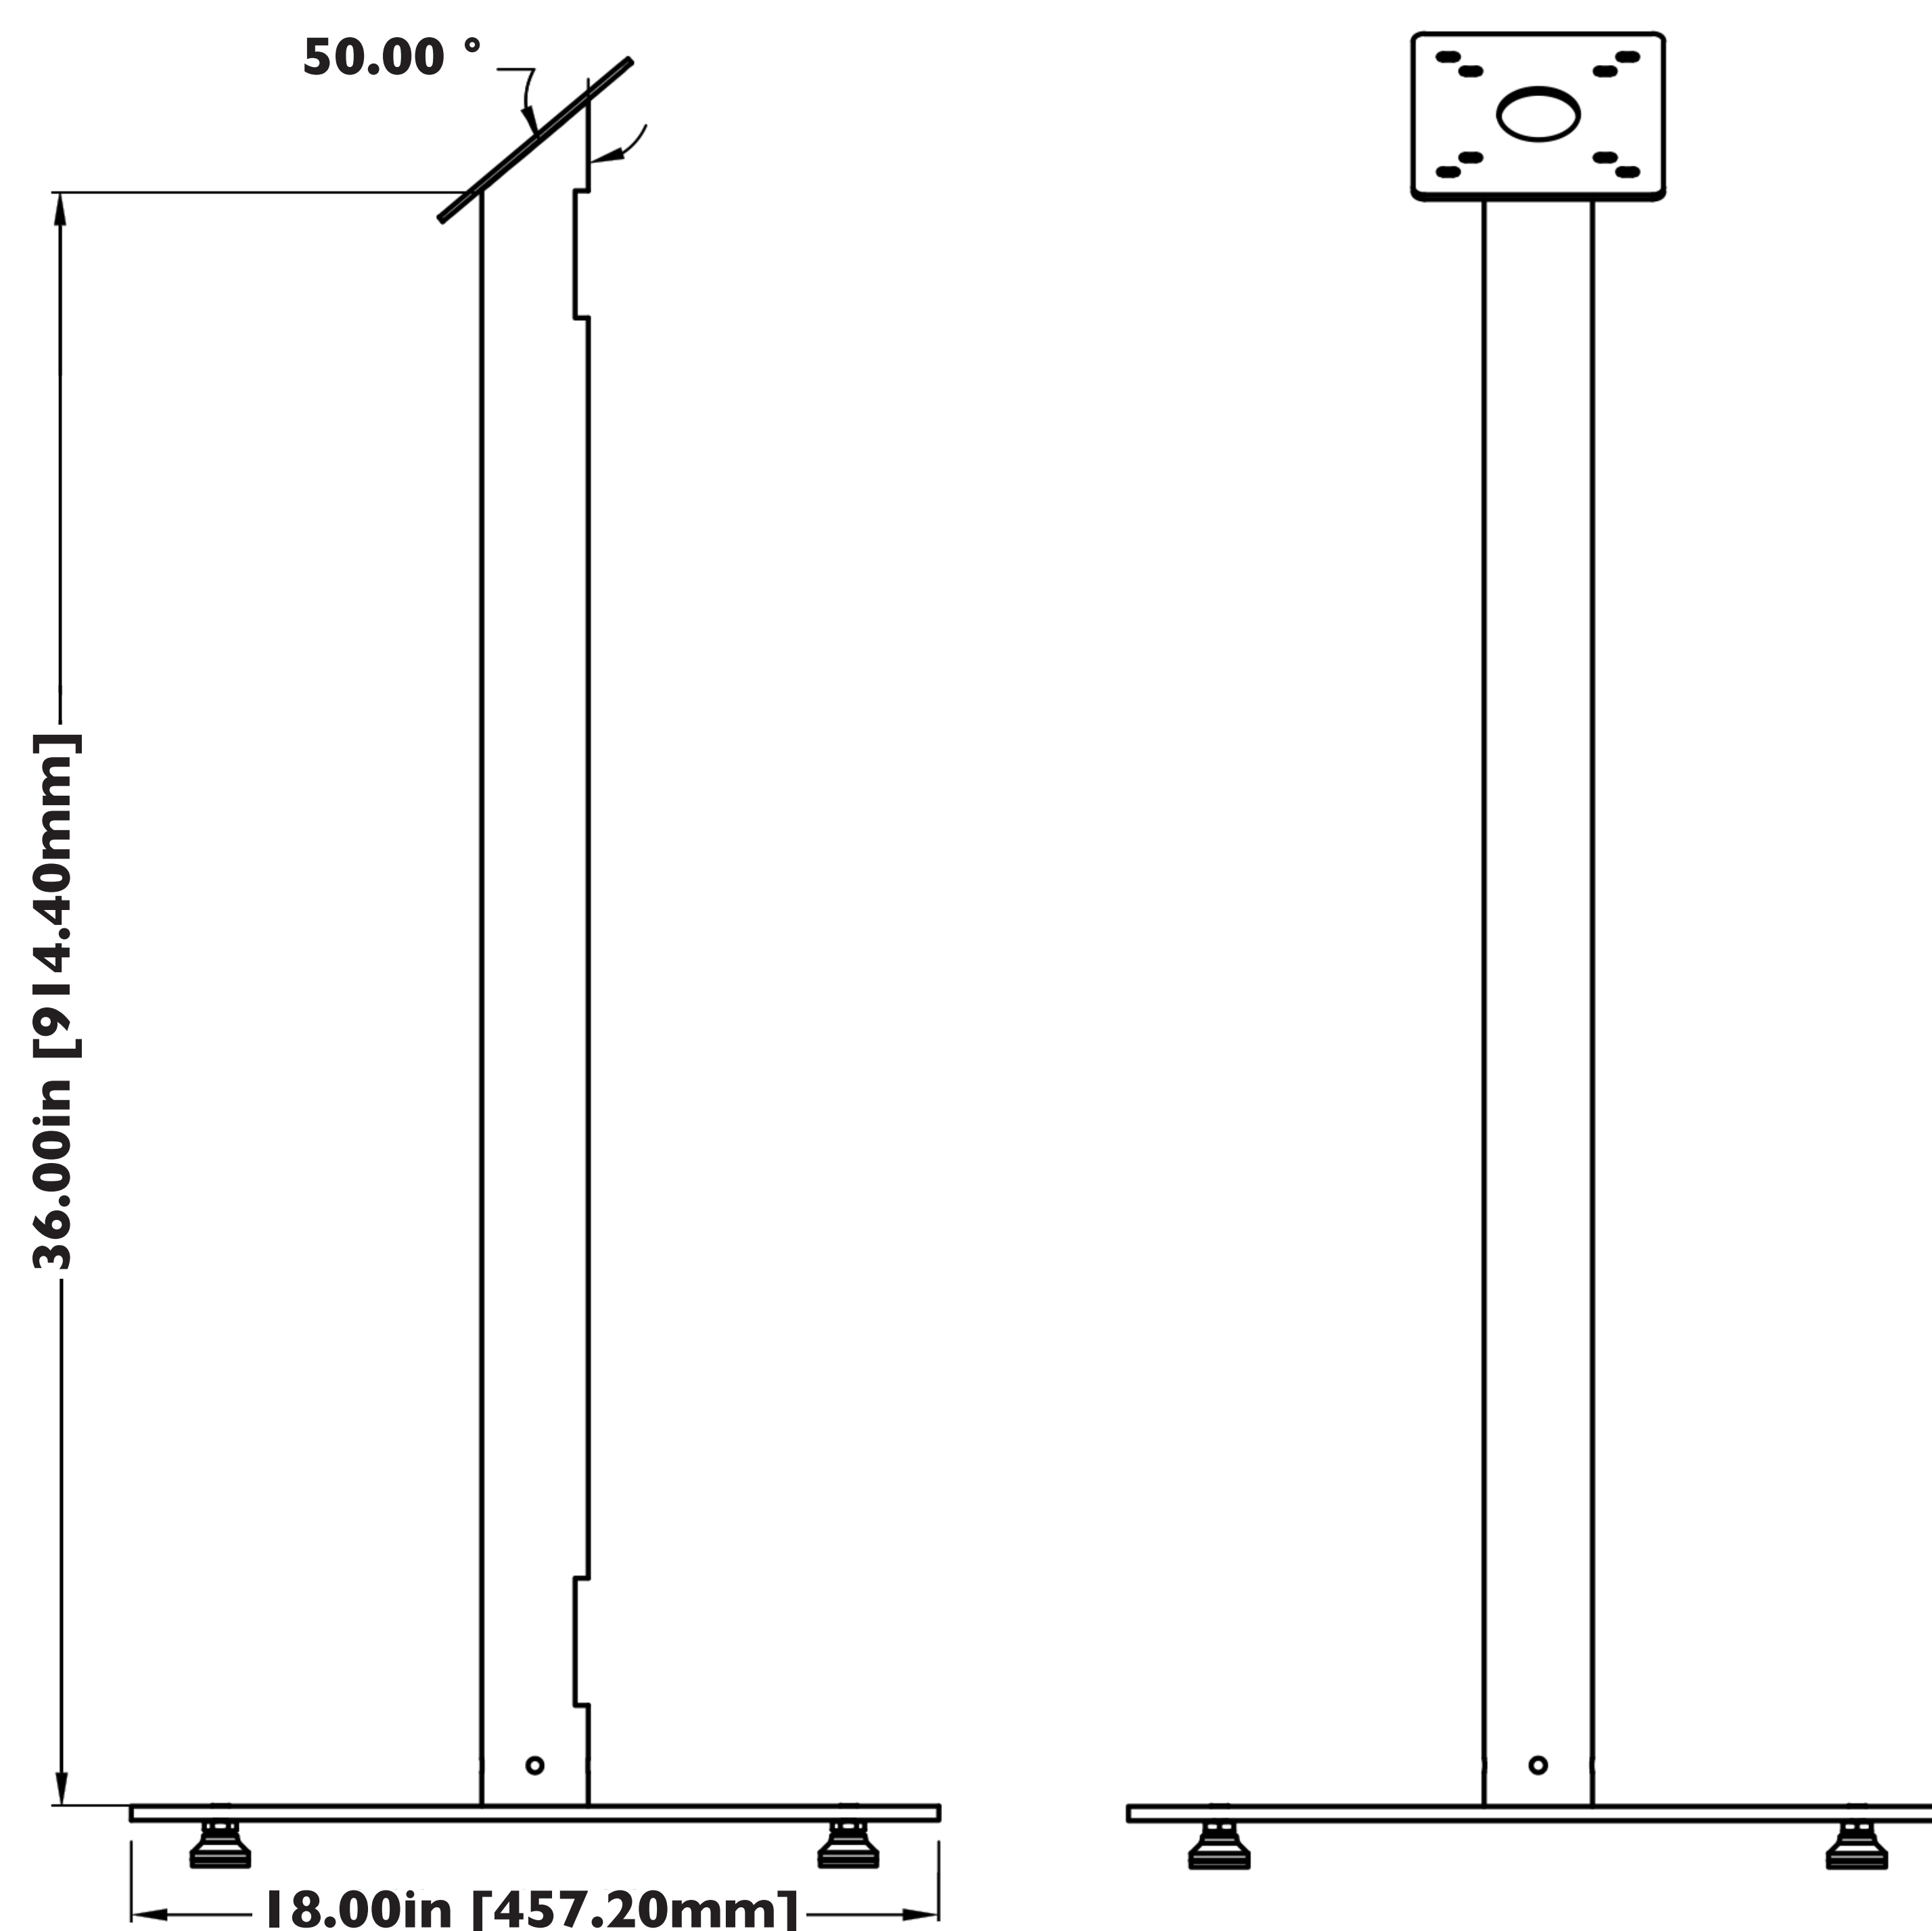

The attachment plate allows for out-of-the-box mounting of any display with a 75mm or 100mm VESA pattern, with a fixed 50-degree angle.

Built to Last

Constructed of powder-coated steel ensures the longevity of the kiosk for years of use. The kiosk can be powder-coated any color to match your environment.

Endless Applications

Perfect for any indoor kiosk application that requires securely mounting a display to a self-supporting floor stand. Ideal for Hospitality, Museums, Hotels, Casinos and much more.
